February 2019

Dear Lions:

**A lot has been happening with Lions Quest Canada,
we need your help to make sure even more great things happen!**

Over the past thirty years, Lions and Lioness Clubs across Canada have made a major impact on the lives of millions of young people through Lions Quest programs. Over 50,000 educators have participated in our school-based training workshops in every province and territory and an additional 5,000 adults have been reached through our community-based training. Today, more than ever, we need your financial help to make sure that our young people are provided with the best social skill development program and resources available.

Our fundraising goal of \$150,000 is needed to:

- Continue to provide innovative programs to positively develop children and youth and ensure that our programs are relevant for today's classrooms and communities
- Support the many educators, community groups and parents who come to us for youth development resources, ideas, and strategies
- Introduce Lions Quest to schools and communities across the country with printed promotional material, social media, dynamic website, and other outreach efforts

To date we have received \$2,940 from 13 Lions Clubs in District N4. The Lions Quest team in your District have some exciting things planned - please consider contacting your local schools and youth serving organizations with information about our programs and keep in touch with your Lions Quest Foundation team.

Will your club make a financial donation to help us continue to grow and meet the needs of Canadian children and youth? Consider honouring a member(s) and/or local youth supporter(s) with a Lions Quest Fellowship (\$500). Consider becoming Q-bear Fan Club members (\$100/person). Consider including support for Lions Quest Canada in your budget annually.

We are a registered charitable organization and eligible in many areas for funds raised from gaming activities (bingo, Nevada, casinos), but check with your local regulations first, and we will be pleased to provide you with any documentation that you need.

Please help us in setting the path for our children – they deserve to be far more than just “problem-free”. The difference you make in the lives of our young people is commendable. Your belief in young people and their potential through your support of Lions Quest programs and our positive youth development initiatives is your legacy.

Warmly,

PID Jack Isaman,
Chair, Board of Directors.

Proudly supported by the Lions of Canada
