

ATTENTION ALL LIONS

At the Gander Convention I spoke to you about the **Disaster Fund** we are attempting to set up for emergencies that may occur in our District or our sister District N3, we are attempting to get clarification as to the right way to set up the account, whether it should be a FOUNDATION, TRUST Account or use the FOUNDATION account we already have. I have had some conversations with a number of people in that regard and at present I am looking for a legal opinion.

Having said all that we do have over \$2000 already set aside in the District account ear marked for our fund, I suggested that for now any club who wishes to make a contribution to the **District Disaster Fund** can do so now just send your donation to the District.

Cheques should be made out to

Lions District N4

And in the area of your cheques at the bottom you can write in **Disaster Fund** then the CST will know what the cheque is for.

I would urge you all to look at getting this started this year as it was at the direction of DG Lewis that this came into being so it would be nice to have the fund started during his year.

REMEMBER we never know when another Igor might come along and cause a lot of damage, let's check out our budgets and give what you can it will all come in handy should an emergency occur.

I thank you in advance for your assistance.

Yours in Lionism

Lion Sam
