

## Mount Pearl Lions Celebrate our global community!

### Mount Pearl Lions travel to Haiti with Team Broken Earth

Three N-4 Lions join the 30-member medical team, travelling to Haiti to offer medical assistance to residents in need. Lions will assist the ophthalmology team in assessing vision and fitting glasses. This is the third Lions mission, since the District N-4 partnership with Team Broken Earth.

MP Lions held a community card game – fundraiser to support the Lions-Team Broken Earth mission to Haiti. They enthusiastically spent weeks planning, donating prizes, selling tickets and finally enjoying the evening with more than a hundred community members who also wanted to do their part to help Haitian residents.

### MP Lions practice the same humanitarian eye service at home

In addition to the support in Haiti, the Lions are holding a similar eye clinic in St John's. MP Lions Gerald & Claudette Coombs and Portugal Cove – St Phillip's Lion Bradley Moss, will join the ophthalmology / optometrist team to provide vision screening and eyeglasses to clients of The Gathering Place and Choices for Youth. This public eye service will share the humanitarian spirit of Lionism, at home!

### MP Lions display unity with their Muslim neighbours ... By forming a Human Shield around the St John's Mosque

Following the tragic terror attack on a Quebec Mosque, the **Muslim Association of Newfoundland & Labrador (MANL)** invited those who believe in love, peace and the unity of all humanity, to their mosque. MP Lions accepted the invitation to join thousands of others, and show their compassion and support for the Muslim community. From 12 noon to 2pm on Friday 3 February, thousands shared a time of expressing sorrow at the hate in the world and hope for the triumph of love and peace.

**MP Lions celebrate LCI 100 years of Service** by seeing, and feeling, the sorrow and needs of people near and far; then sharing their love and compassion.
